SPCSA Board,

This memo serves to provide a written update of the current status of Las Vegas Collegiate Charter School.

**Facility:** Las Vegas Collegiate is planning to submit an LOI for a property in the coming week. The property could sustain the school for 2 years, if leased. Simultaneously, we are assessing feasibility of permanency.

**Enrollment:** The Las Vegas Collegiate team has developed a robust plan for enrollment that incorporates both staff and Board members. Our team does “Feet on the Streets” events 2-3 times a week, reaching 500 – 800 doors. In response to what other fully enrolled schools have noted as most viable for enrollment, we have recently launched a social media campaign to increase awareness of the opportunity to enroll for all eligible families at a faster rate. We have made connections with many daycare centers in the area and have future dates to connect with parents and families through center sponsored events.

**Hiring:** Currently, Las Vegas Collegiate has 50% of necessary staff committed for the coming school year.

We look forward to connecting during the February 2021 Board meeting and happy to field any further questions.

Committed to Excellence,

---

Biante' Gainous, *Executive Director*
